

## ‘L’ TYPE - OLTC

ON LOAD TAP CHANGER TYPE ‘ L ’

**SUKRUT** was founded in 1967 in India as a pioneer in the field of transformer accessories.

Over the years, it established close collaborations with almost every Indian manufacturer of Transformers. Therefore, SUKRUT has an excellent understanding of its customers needs.

Today, we are building on our know-how by deepening our relationships with international partners as well. We cooperate with them to deliver the best product tailored to our customers’ needs, especially in India, but also around the world.

It can be seen, that inventive talent and ongoing collaboration with customers and partners are the basis for the sustainability and success of SUKRUT.

### SUKRUT AT A GLANCE

- Excellent reputation since 1967
- A wide range of cost-efficient solutions for the transformer industry
- Product solutions adaptable to our customers needs
- State-of-the-art product testing and calibration facilities
- Dedicated customer care team for efficient aftersales service

### ON LOAD TAP CHANGER

Giving justice to its vision, and it's motto of "Global technology for local needs", recently SUKRUT has decided to add On Load Tap Changer in its gamut and we are sure that you will definately like the ONE STOP SHOP solution offered by us.

### FEATURES :

- Integrated drive mechanism.
- Designed for 5 Lakh operations.
- No barrier board required.
- No huge sealing area required, hence leak free.
- Transformer size becomes very slim.
- No conservator required and hence no piping costs.
- Between 50,000 operations, no maintenance is needed.
- Total freedom from menace of barrier board related problem.
